PROFESSIONAL EXPERIENCE

Apprentice Sales Engineer – HV Substations
Schneider Electric | *Sept 2026 – Sept 2029*
HTB team, Toulouse – responding to customer tenders for HV/MV substations

- **Prepare** quotations and bids for HV/MV substations (switchgear, transformers, protection) from customer specifications.
- **Analyse** project technical specifications to identify primary MV switchgear and auxiliary transformer requirements.
- **Consult** Schneider Electric factories by package and structure pricing requests with the relevant technical documents.
- **Compare** product ranges (MCset, PIX, RM AirSeT, Trihal and oil-immersed transformers) to propose the right solution for each need.
- **Write** scope notes and technical replies for customers and internal teams.
- **Carry out** market studies and follow up on sites alongside project teams.

Apprentice Electrician-Fitter
Cegelec Défense | *Sept 2024 – Aug 2026*

- **Carried out** electrical works on site.
- **Maintained** complex systems.
- **Contributed** to site studies (preparation, methods, organisation).

Non-commissioned officer training
French Air Force | *Oct 2023 – Jan 2024*

- NCO training school: rigour, discipline, respect, values and team living.

Deliveries Manager / Temp Staff Supervisor
Toulouse Carrelages | *Jan – Aug 2024*

- Organised deliveries and supervised temporary workers.
- Earlier (2023 school holidays): warehouse operative – handling, stock management, order picking.
